

OASIS D Readiness- 2019 Brings Big Changes

October 23, 2018 8:30am - 4:30pm

Hilton Garden Inn
4050 Cox Road
Glen Allen, VA 23060

In March 2018, CMS released the draft version of the updated OASIS data set to comply with the IMPACT Act. At this time, the changes will be effective January 1, 2019. DO NOT take the upcoming changes to OASIS lightly! There are numerous additions, modifications and discontinued items that you must be aware of!

Draft Guidance has been released. There are a number of changes that could significantly affect your Star ratings, reimbursement and publicly reported outcomes. Some items being removed are currently used to calculate risk adjustment, therefore there is a potential for the remaining responses to have a greater impact on outcomes. The new functional items added allow for several potential areas of overlap and duplication with the existing M items, leading to possible confusion and inaccuracy in scoring.

Workshop will address:

- Additional standardized items
- Deleted items
- New GG and J items
- Standard pressure ulcer measure
- Different scales for scoring
- Impact on Star ratings
- Impact on Risk adjustment

An accurate OASIS data set is essential for numerous reasons. Providing good care depends on an accurate patient assessment. Proper reimbursement and positive outcomes depends on an accurate OASIS also. Empowering assessment clinician with the knowledge and tools needed for an accurate OASIS is essential to an agency's success.

Presenter: Jennifer Warfield, BSN, HCS-D, COS-C, Director of Education Services, PPS Plus Software

As a well-known homecare coding and OASIS specialist with extensive nursing experience, Jennifer is an informational ally for hundreds of home health agencies across the country. Her passion for being an educational resource keeps her traveling across the country to conduct educational sessions and speak at numerous home care conferences. Her expert knowledge plays an integral role in the development of OASIS Analysis Plus, PPS Plus's OASIS analysis software.

Target Audience:

- Field Clinicians
- RNs
- PTs and STs who do OASIS
- Clinical Managers who want/need a refresher
- QA staff
